

## **STUDENTS WITH LEARNING DIFFICULTIES AND DISABILITIES POLICY 2018**

### **Principles**

- The school is committed to promoting a learning environment which is completely inclusive for all students.

### **Procedures**

- The Director of Studies (DOS) and the Health and Safety Officer are informed by office staff of the arrival date of any student with learning difficulties or a disability, which has been indicated on the enrolment form.
- The DOS informs the teacher and arranges for the needs of the student to be met: training is provided for teachers to assist them in dealing with these situations.
- In the case of a disability, adequate provision is made ie use of ramps for wheelchair access, choice of suitable classroom and access to toilet facilities.
- In the case of learning difficulties the teacher is provided with the necessary learning tools to aid that difficulty ie large printed work sheets for the partial sighted.
- Where necessary a helper will be provided to assist with supported learning.
